Quality Policy – Ferr-Tech B.V.

Scope: Ferr-Tech B.V. develops and delivers innovative and sustainable solutions for industrial water and wastewater treatment based on Ferrate (VI) technology.

Through our products, expertise, and services, we contribute to more efficient water use, reduced environmental impact, and sustainable industrial processes.

The management of Ferr-Tech B.V. is committed to achieving a high level of quality in all company activities and continuously improving the organization, its products, and services. Our Quality Management System is established in accordance with the requirements of ISO 9001 and provides the framework for a structured and effective way of working.

Ferr-Tech is committed to the following principles:

- 1. Innovation and Sustainability**
We promote research and development of sustainable technologies that contribute to efficient water treatment and water reuse.
- 2. Engaged Employees**
We invest in the knowledge, skills, and engagement of our employees so they can actively contribute to quality, safety, and innovation.
- 3. Continual Improvement**
We continuously improve our processes, technologies, and the quality management system to enhance performance and manage risks effectively
- 4. Customer Focus**
We understand the needs and expectations of our customers and translate these into reliable, innovative, and sustainable water treatment solutions.
- 5. Quality and Reliability**
We provide products and services that meet agreed requirements, applicable laws and regulations, and the quality standards we set for ourselves.
- 6. Partnership and Collaboration**
We work closely with customers, suppliers, and partners to develop valuable and sustainable solutions.

The management of Ferr-Tech B.V. ensures that sufficient resources are available, measurable quality objectives are established, and the effectiveness of the Quality Management System is regularly reviewed.

This quality policy is communicated within the organization, available to relevant interested parties, and periodically reviewed for suitability and relevance.

Management – Ferr-Tech B.V.
